You helped me a bit when i first came to these forums, although you described my first map as

Quote:
this map is pretty cool. But is still lame for one reason, its just a WS building turned into a MP map by a fan modder

yes i found the original post

aside: you also said this about it..... what were you on about???

Quote:major flaw in map! whenever you try to set it on fire, the monitor melts!

I still apreciated the help
