Subject: Raveshaw Settings
Posted by obelisk70 on Wed, 09 Mar 2005 01:33:48 GMT

Hello .I have a question about the rules for the jumping raveshaw. I was wondering if there is a way to go into more editing with him, I know how to change his running speed and health but what about for when he jumps. Does anybody know if there is a way to change the jumping settings for example How far he jumps or how fast he jumps and other things.

Thanks for any help.
