Yep, it's happened to me too.

Can't remember which teams i've been as, but it's happened at least 10 times in the last year that i've been playing.

You'll be driving along perfectly with no lag and suddenly *poof* you're back at base infront of the spawn point PT's. No death animation, no enemy fire, nothing.

Mind you, this hasn't happened to me recently at all.
