echoy97I reformat my hd, install renegade, all the UN maps from http://unrules.com/   , then renguard. Every time renguard starts, it will say "model textures have been detected on your client. you will not be able to join a pure server" ??
The only thing I added was UN maps. Then how am I suppose to join the UN server with renguard ?
LOL, you did all that just because of that message?
