The version of phpBB I am running was made before the image verification. You guys voted to keep the look and feel the same instead of having more security.

But man, he got me again...

Deleted rows: 14323 (Query took 0.7982 sec)
SQL-query:
DELETE FROM users WHERE user_id >=5091 AND user_id <=19413

I'm SO impressed, man, really. I'm also impressed that you used your real IP: 69.198.63.78
