Lemme check if I get it right: he cheats, so we ban. Now he's gonna cheat even more cause he's banned! However, on the server I play he'll just get forceRG'ed or kick-banned and bye-bye!

Now he asks us to unban him so he can play normal games on my server (with rg) and cheat on other servers. I DON T WANT NO CHEATERS ON MY SERVER! Not even if they aren't cheating at that moment...

If u unban people that tried to bypass, they'll just try again.

Good job, Crimson!
