Lol I don't Delete stuff from my always.dat I just had a corrupted one and had to get another. The one I'm using now is simply one my friend sent me and he doesn't know beans about modding so. Also I checked the one he sent me awhile back...not there either. Also I'm pretty sure it was pine_grn myself but I wasn't sure so I stuck with both just to be on the safe side. As of for the presets thing I have tried that...havn't done a reinstall since I'm lazy:/. So I tried one and two...three maybe I will in a bit:|.

If anyone has the model and can simply upload it so I can just do that...that'd be nice:\.
