Well, i dont care much about the WOL ladder anymore.. but what you are saying here is that. If i'd go idle with nick .... for like a night.

Next day hele' be like -8000 ladder. I know the Mods/owners will notice someone being afk for a long time. And if they find out it isnt the real name they will ofcourse ban him.

And how do i ban this guy, becaus if i do JPNOD: ip xxx.xxx.xx  
in the banlist it will just ban me :/  
ore just only put in the ip.

Thanks in advance!
