First you do the tutorials in the help files. They will start you off. if you don't have them I might be able to mail them.

Then you go here. For basic websites.

http://www.apdz.com/v5/tuts/viewtut.php?tut=20

Then here. Make sure you sort by easy first. There are lots of starter text effects for you.

http://webdesign.templatemonster.com/web/flash/tutorials/

You learn action script here.

http://www.actionscripts.org/tutorials.shtml

Everything else you will need is here.
