Cyber030 wrote on Thu, 16 June 2005 23:57already tried setting mct settings to blamo, I could still injure the buildings.

The building has 3 skins, the mtc, the Interior, and the Exterior, you would need to change all of them, but I don't know if that would work for clients...

If you set it up as a heal script you will still get points off the buildings.

You need to go into LE and open each building controler, and set them from there defalt settings to blamo.
