Shush your mouths lol.

Alright guys Fist Of Fate is not dead at all, at the current time we are in a awkward situation becuase our domain has gone down and we cannot resume updates unless our domain is up, "fof.deadlyfear.com" so that is why there has not been any updates.

There have been 2 new character additions to Unadahms side and i have been working on some models myself, it didn't help that i lost my internet connection a few weeks back but now Im back.

I wish for all the team members to still work towards Fist Of Fate's future, please. hold tight.

I am going to sort out a new domain and hosting if our domain "fof.deadlyfear.com" is not back online within a week.

I will post here for further information in the future.

(Attached : Picture of team base flags, Model and texture by myself)
