selfThe lack of long-term support for Renegade was the salt in the wound.

To clarify. Ren = awesome. EA's support for Ren = fucking horrific.

RA2 was not awful, but in all honesty it did not belong in the C&C universe.

*Edit: And as for Generals, There's only one thing to be said about Generals. That one thing is that IT does not belong in the same sentence as the title of Command & Conquer.
