It's ridiculous for anyone to "talk shit", especially on the internet and especially if it's about videogame skills. It's just plain retarded to do so. =P If you're really gonna do so, make the topic be worthy of the argument at least. And for fuck's sake, start PMing us or come on irc or SOMETHING. I'm tired of walking on eggshells here and want to talk to you personally so you don't feel the need to defend your pride in front of everyone, you'll only have to do it in front of me. It feels like I'm in politics when I reply to your posts here, or at the very least it feels like I am in the spotlight. I HATE being in the spotlight.
