FDS will run fine in a lan party. all you will have to do is set the server to connect to as LAN in server.ini. if you want a regulator i reccomend NightRegulator [NR].

Here are the 2 links to get FDS and NR

RenFDS [ftp://ftp.westwood.com/pub/renegade/dedicatedserver/Renegade FDS_1037.exe](ftp://ftp.westwood.com/pub/renegade/dedicatedserver/Renegade_FDS_1037.exe)
