Fucking whipped little bitch. You're not supposed to say your girlfriend's name. You know damn well you like other names better, but Stephanie has just been in your mind for like 2 years, right? This would be why i didnt say my girlfriend's name. Im breaking up with her anyway, shes frickan psycho.

ROFL. The last girl I tried to get with was kind of psycho, so I said forget that, and stopped talking to her. Now I found someone who seems to be better than her, but I just have to actually go on a date first... she works too fucking much.

Edit: Page 6, bitches.
