I know its been asked a million times but i need an fds serial number. I have an fds serial number and use my server once in a while but the main reason i didnt use it is because i didnt have a bot. I finally got brenbot installed and when i went to test it, some one was using my serial.

So if anyone has one i could have id be very greatfull. I dont have anything to give you except to be a moderator on my server maybe.
