The solution of the problem is simple!

1.Deinstal Renguard

2.Go to Registry Editor (Start > Run > Regedit)

Search for "SVKP" and delete the folder!

(HKEY\_LOCAL\_MACHINE\SYSTEM\Contralset001\Service\SVKP)

3.reboot your PC

4.Start Norton

afterwards "Mauelle Prüfung" and "Ausschlüsse"

Then on "NEW" and "c:Windows/system32" and presses on "OK "

5. Install Renguard

You can start it now without problems!
