1) Wol can't retrieve server list
2) I go on Gamespy and I get a buffer overrun error and disconnected

3) If I make it in the game after 5 mins or so I get disconnected from Renguard and the game shuts down.

Very frustrating. Played hookie from work to relax and play a bit of Ren and all this. Oh well.
I get that error as well...and of course can't connect to WOL.
