ikaika wrote on Thu, 17 November 2005 18:28OK i think i know what the hell u are talking about now cave man. it came to me at work today. there is a file that a person can make for brenbot for ignore. but here is the thing, it is so that the person that is on the list can not be forced to use renguardon that server it will ignore the request also it will let the person join a pure server without renguard. it still has nothing to do with wether i am running it or not. if u are running rg and your name is on the ignore list it will still state that u are using it in that server u rg the person. and it will also tell u if they are not running it, and if u are not running it and on the ignore list for the server u can not force rg on them. that is how it works i remember seeing that a long time ago.
You worked that out all by yourself, without any hints? Not even... reading the thread?
