i did everything u said until step 5
i instaled renegade
i deleted westwood files
i updated renegade
i downloaded rg
but when i press the rg setup it does not ask me to where do u want to put rg on, it asks me u
want to modify,repair or remove and i clicked remove
then i pressed rg setup again then it asked me to remove
i can do that like 1000 times and it asks me to remove not INSTAL DAMMIT.
GODDDDDDDDDDDDDDDDDDDD HELP ME
