Terminator 101 wrote on Mon, 16 January 2006 08:20Oh, I thought DJM was talking about.... ah, never mind. Disregard my previous post

Anyway, I think Fraps(just like any other program) probably needs a serial number that you can probably get from kazaa.

Lmao, yeah run any program you get from kazaa that has the word "keygen", "crack", or "fix" in the title.

Matter of fact, download like ten of them, goto the directory, Ctr+A, then press enter.

When you reinstall windows come back and tell us how it went.
