18:42Download http://uesclan.com/uescat998/Scripts222.rar

Put the files bhs.dll scripts.dll and scripts2.dll into your Renegade folder (replace them there).

Start Renegade

Click on pratic mode.

When map is loaded open up the console with F8 and type

mlistc 1 C&C_nameofyourmap.mix

Then open up the console again and type

win 1

It should load your map now.

did not work, I downloaded and installed the files, but the game won't load now.

All you have to do is download those maps on that site, place them in your Renegade\Data folder,
open and edit your skirmish.ini like the following:

Where the entry "MapName00=C&C_Skirmish.mix begins, add these after that entry:

MapName01=C&C_Field_AI.mix
MapName02=C&C_Volcano_AI.mix
MapName03=C&C_Walls_AI.mix
MapName04=C&C_City_AI.mix
MapName05=C&C_Canyon_AI.mix
MapName06=C&C_Hourglass_AI.mix
MapName07=C&C_Mesa_AI.mix
MapName08=C&C_Islands_AI.mix
MapName09=C&C_Complex_AI.mix

If there are any errors, someone please correct me as I said this from memory.
