(EDIT) Addressed to TD:

No shit it isn't, nothing is. Switching from IE to "Fireshit" as you call it was easy for me as the setup is similar in many ways and tab browsing, which I'm not a very big fan of isn't as annoying as it is on other browsers such as Oprah, I already tried switching to Oprah Winfrey 8.0 twice and both attempts failed miserably. The damn thing's just unattractive and doesn't fit my needs.

Bottom line is: use whatever suits you best.
