To play online, you just need to click "multiplayer game" and then hit "westwood online". It will ask you for a username and password. Give in the username you want and a password of exactly 8 letters. Then you'll automatically be transfered to Xwis where you can choose a server and play .

www.renguard.com -> Renegade's anti-cheat. Most servers don't require it but you can be forced to use it by the moderators.
