CmdrCamp wrote on Fri, 24 February 2006 17:07I don't know if this is due to the new core patch, but after i installed it, Renegade freezes when i click on Multiplayer LAN at the main menu.....but i can still got to online so all is not lost .

EDIT: Nope, I was wrong, freezes when i try to go to Advanced Game Listings....... ....and i'm kind of wanting to play renegade......
I had teh same problem, it's your firewall. Put game2.exe again in the firewall "allowed" list. As this .exe changed, your firewall blocks its attempts to join the Internet.
