3rd-engi's
The rest... dom't care

...and that's why you'll never be good at this game (same goes for all you other 1st person foo's).

That's why you won't ever play other games then Renegade.

lol, I played Call of Duty and I was pretty good at it. The fact still remains that you'll never be good if you use first person (unless you originally got good with 3rd person, but that isn't the case for any of you as all of you are bad, and no I don't need to play with you to know so).

What's up with you geeks always making stuff up? It's not like any of you really know what you're talking about, because in reality, you're all bad at this game. Sure, you may not think so as you all play together and don't see anyone better, but that doesn't change anything. You wouldn't understand though, you all think Crimson's smart and always follow on her footsteps
