Hi all. I have there ma par ask. Are Bla\_Bla\_custom scripts one message send? Are Bla\_Bla\_on\_custom scripts one message on a message wait? I try it already for a long time, but I kan to me my mistakes do not explain. With Scripts Zones I work and with the Daves Arrows!! Thus I want to have that in my Mod. If the play 20 seconds runs and vehicles are provided. I still want to have this so that one becomes in a vehicle immediately gebeamt.thanks
