Hi all, I has tried to do it to Bots and has as done them as on the bell-boy (http: // renhelp.laeubi-soft.de/index.php? Tut=40), but if I Dedicatet has loaded server and he the Map, then he restarts the server always, Why? I have also copied used objects.ddb and *.IDD in the list of Dedicatet server. I simply do not know why it not goes.

MFG
