Dose anyone know where i can find a few tutorials on how to use rentools and renx. I know a some stuff about rentools. I don't know anything about renx.

For rentools. How do i make more buildings on to the map. Like the map, under or bunkers. I'm new at this stuff. I'm trying to learn this stuff so i can have some fun in making maps that i would think are good.

Thanks for any help that can be provided.
