If anyone is still getting "old file not found errors" and:
1.You are going through RenGuard
2.You have Core Patch 1 and its downloading cp2.zip

My renegade is part of "C&C the first decade". I installed Core Patch 1 as standalone an want to install cp2 through renguard. In regedit PatchVersion entry is 1. I hope you can help me.

Mine is going exactly as stated above as well. Im running C&C:TFD too, maybe it just doesnt like C&C:TFD?
