here is the story guys

I just join the Hitech server (rule, no b2b,sniper,extra,etc)like half a game

okay, my team lost cause when I joined the game it have only 3-4 mins left

when ever I just joined the game usually take me about a min. to kick all the rule breaker, okay, at last all the rule breakers are gone after and everyone are happy....except for tankcmdr6, the next map is under.mix

we start playing very peacefully, I click F2 and said"to all, unless it's an important issue, don't private message me every 5 seconds asking me to kick who, I just want to play a peaceful game and not here to watch ya'll play as I being a gov.", about 30 seconds later, tankcmdr6 told me there is a sniper(that's important) and I kicked that person for him....later someone was using an extra(told by tankcmdr6 again)so I go and kicked him also, I post that same message again saying I want a peaceful game , don't bug me now....guess what???tankcmdr6 ask me to kick another person again...(while I'm battling in the middle of the field) and he said I'm not doing anything(what am I suppose to do? let others kill me while trying to type the kill command?), and later I return to the base and refill my ravesheew, guess what???it's tankcmdr6 again....kick this person...he's using extra...I click on J to make sure....he's a ravesheew with the extra skin, I told tankcmdr6 again...dude I don't care if they are not using an extra, as long as they are not that important I'm not planning to kick everyone out of the server for fun", his reply was something like"I'm just trying to help you out with the server rule, what's the point of having a rule if you can't keep it" my answer was"I didn't make the rule, but I like the rule,and I'm going to make everyone to follow it when I'm online, if it's important I will kick this person....otherwise I'm not planning to kick"

than later he sended me like 20 messages non-stop...I reached my limit of having him around me....I cast a admin message and ask "vote, do you think I should kick the person who won't stop bugging me?" everyone vote yes, he he got piss off and said..."if this is how you mod the server I don't think I wants to play in here anymore" and he left, I wasn't really going to kick him(unless he bugs me again, than yes)....I go around and told almost every HT about this story how tankcmdr6 won't stop bugging me, I even told pft1086 even though he's not a HT....but this really really piss me off how he just say I'm lay-z
