hey,

i have command and conquer the first decade. so i whent downloading the renguard thing. i installed and then i whantted to play. renguard shows up and then i get this: "buffer overrun detected"

program:...mmand & conquer renegade(tm)\renegade\game.exe a buffer overrun has been detected witch has corrupted the program's internal state. the program cannot safely continue execution and must now be terminated." and i took a screen so u guys can see the real problem.
