I didn't really see this one coming: possible alliance against Sony ?(future failure (the PS3 that is), imo (and in the opinion of MANY others)):

<http://www.dailytech.com/article.aspx?newsid=2268>

The Wii according to a Sega VP and other fellows should retail around \$200 to \$250 United States Dollars, which means you'll be able two consoles for the price of the PS3.

Wii Virtual Console Controller:

(that was somewhat anticipated)
