Just DL the snipermod created by Dudley at www.game-maps.net -it's fairly better than the old SSM which an be DLed at Nightregulator.co.uk.

Use the NR 0.20 for this or just BR1.41 (in case of running this recommended SSM on ssaow1.34).

Or use ssaow 1.5 with it's built-in Snipermode.

WHere is the sense of forcing the players on a SSM? Do you want to set up a sniper-coop?
