Are you kidding me, the Stealth Soldier's Rifle SUCKS compared to other weapons! And you can't pick up weapons with a Stealth Soldier. Unless your a spy, then you just might.

By the way I think that games shouldn't have vehicle limits.

Yes. You can. I know, I play on Unrules New Maps, where there alot of maps in the rotation that have weapon spawns around the map. You can pick up weapons as a stealth Black Hand, and as a spy.
