one winged angel wrote on Tue, 13 June 2006 12:52Heh you could password the server and redirect to a quiz which only 1337 gameers could answer. The prize for doing that would be the password, no more n00bs! Or you could just join a regular server.

Why take all that effort? Just change the password to the hostname and say in the title Password = Hostname. n00b wouldn't be able to guess it!
