I have a question... For some reason I can't download Renguard, I've tried three times and all three times It's told me Incomplete Download. So I continued to play, because I don't cheat anyway. Some retard n00b keeps walking straight twards me and i had a sniper, so, I stuck a bullet in his head. I shot another guy in the head because he was doing the same thing. And then I was shooting at a tank and shot one of those Black Hand invisible guys in the head by mistake, they all did this Forcerg thing on me. Listen, I can't help it if they all suck, and are n00bs. So, what do I do? I can't download RenGuard, and i can't play because people suck.
