Looks like this is solved, good job Goztow.

And Metro, next time don't blame RenX for you ignorant mistake. His instructions were perfect, and how you ended up with 2 Renegade folders is ridiculous because nowhere did he say to create any other folder. Also he did not miss any steps at all, and none of his steps were wrong.

It was your own foolishness and to put the blame on somebody else so you don't look like the idiot is wrong.
