danpaul88 wrote on Thu, 03 August 2006 18:09why uninstall winrar? surely you can have both installed...

personally I normally use CLI based unzippers, there's no need for a GUI to unzip a couple of files.....

Sorry I don't know as much as you. I don't know what the heck your talking about but I trust you do.

And he's right, you don't have to uninstall WinRAR. Just try TUGZip, keep the one you like better. No sense in keeping them both over time of course.
