THE WINNER IS THE:

(drum roll please)

N00B JET (ram jet) !!!

Ok, the good news:

Rigging is complete

the bad news:

I'm a horrible texture artist and all my attempts for a great texture is failing.

But if anyone has the time to make a texture for the rifle,
download it and please make a texture and post it here.

This is a great model... a great model needs a great texture...
