This is why i don't play on most WOL servers, they just happen to be shite.

It's funny how word gets around about cheaters(apparent cheaters may i add), when looking for cws i've seen replies from clans saying,  
"we don't play cheaters"  
And then i reply,  
"What proof do you have that we cheat?"  
Its the same old shit,  
"We've heard about it from other clans like EoE, SoQ"  
I laughed.

I joined the EoE server once and got flamed saying i was hacker just for being a GW member, absolutely no evidence but they said oh, one of your members played under the name Vagina in the clanwar and we didn't like it so we banned him. Then he came on under a another nickname and wasn't banned. So him and everyone else associated with GW is now a hacker in EoE's book.

HOW PATHETIC.
