Subject: My building interiors...
Posted by R315r4z0r on Wed, 06 Sep 2006 03:59:16 GMT

Well, for no reason at all, they aren't their... they just stopped working.

I am using the "Buildings-Setup.gmax" for the buildings. I have not messed with it at all. But now, for what appears to be no reason, all the interiors don't show up in level editor or In game!

help?
