EnglandMadtoneYeah, thanks Spreegem but i need a huge *dedicated* and daily updated community site.

I think the CnCDownloads site will be my best choice for the helper on my project, will inform everyone when it reaches a stage to be actually able to show everyone something!

Thanks guys

Meh cncdownloads.com is my baby, what am i getting

I will PM You!!

Terminator 101
Yes, that is me. Wow, I didn't know that you use these forums.

Yeah i have been for a while, but my skills in WebDesign and 3D Modeling have greatly improved since my GSA Days
