0x90 wrote on Thu, 14 September 2006 14:55why shouldnt someone direct connect to your server?! are they really meant xwis/wol-only?!
wouldnt make sense in my opinion... since most dont have a valid serial which is needed for playing on xwis.
thats the reason i made "wolhook".. to get the server ip/port and direct connect to it.
im sorry if someone abuses it.

And you only made an "anti kick" because people should be able to play in a server without being kicked?

And you explain how to bypass server bans because a player paid for the game, hence the server owner who pays 100+ € per month for his server shouldn't be able to ban them?

But all this doesn't count as you got rep on a cheaters forum, THAT is more important!
