what do you think of updating them?

I personally think these old images have a lot of charm. It gives the website the 'good old' Westwood's Renegade feeling.

What I could do is add recent screenshots so visitors can see the contrast.

At the meanwhile, I updated the 'downloads' section with some info about Renguard, Core patches, fanmaps and the FDS/Brenbot tutorial.

About the bypassed Renguard issue:

I hope this can be considered as a suitable answer.
