When kholdstare would start an argument with some random guy in the N00bstories servers for no reason whatsoever, and completely go berserk if they said ANYTHING in reply and ddos the poor kid, there's really no "assume" about it.

That reflects on his personal life... how?

I'm sorry, but when you get SO ANGRY at someone arguing back when you started the argument in the first place, and the only way you can resolve your rage is by ddosing someone, you fail at life.

Utterly.

You didn't answer my question, at all. How does this reflect on his personal life? I'm not talking about his character. I'm asking you how this makes him lonely. How do you know that he doesn't go out and have a normal life including relations with women? Just because he acts like a complete prick online doesn't mean that his life is void of relationships. Of course, I can't say that you're wrong, either. I don't know him personally.

I don't see why insulting someone as pathetic and wretched as Kholdstare makes me an idiot. Because not all people agree with you...
