I don't know if you noticed, but I started a new mod a few weeks ago. we are going to make all Buildings by our self, we will NOT extract them. but we will axtract the vehicles from generals, we add more details on the vehicle models and on the vehicle skins. we make the guns by our self. and we make the infantry by our selfe. so we will only extract the generals vehicle models and edit them. what do you think of this idea?
