wilost0rm has hacked The Gaming Realm, a forum j4295602 and I run for fans of computer games. He has threatened to shut it down, and has made it impossible for me and j4295602 to access it, even though his IP has been banned. He has also, on AOL Instant Messenger, threatened us with death. Though we believe these threats to be groundless, we do believe he means it and just doesn't have the resources or the drive to attempt to do it. We believe he lives somewhere in Missouri, (I live in Ohio and j4295602 will not divulge his address) If anyone wants copies of the conversations we have had with him, including one with him threatening us, PM me or j4295602. The transcripts are stored on our site, so if it goes down, so do they. Any help with this would be greatl appreciated.
