If its true then tough, live with it or change it.

Oops YOU!!!! cant change it, can you? Thats why there will always be Chiefs and Indians, Headmasters and school-kids, Matrons and nurses, Generals and soldiers,etc..... its called HIERARCHY.

You made a great point. It questions society. Wether your a litte person on a little planet in a huge galaxy and can't do anything about it, or whether your somebody else..... This has a lot to do with your point of view.
