Download it, torrents from dfgdsg.com and just download using bit lord or something, the one i got (from \*\*\*\*\*.net (the correct people will know (i got it from there because it was the only place i knew were to get it, that's all i got. I'm not one to \*\*\*\*\*)) came with a no-cd crack and a keygen that is no-longer valid since they won't work with xwis, but it's worth a try.
